Re: Annual IC Monitoring, Compliance Assurance, and Certification Report Himco Dump Site, Elkhart, Indiana (Site)

Dear: Director, Mr. Murray, Mr. Matson, and Mr. Petroff:

This report is submitted by Groundwater & Environmental Services, Inc. (GES) on behalf of the Performing Settling Defendants (PSDs), collectively known as the Himco Site Trust (the Trust).

In accordance with the provisions contained within the USEPA-approved Institutional Controls Implementation and Assurance Plan (Plan) also known as the Long-Term Stewardship (LTS) Plan and the First Five-Year Review Report for the Himco Dump Superfund Site (March 1, 2016), the Trust hereby declares annual compliance with the Institutional Controls (IC) Maintenance Elements and the Environmental Restrictive Covenant in place on the landfill property.

In addition, GES has contacted the Elkhart Utilities Department, Public Works Office, and County Recorder's office to validate property ownership, drinking water well status, and property zoning. All properties with ICs in place have been validated to show no change in zoning and no groundwater drinking wells have been installed on the subject properties. An updated "Himco Site

Property Ownership & Institutional Controls" table (**Table 1**) has been provided to document this information as well as any property changes that were noted during the IC research.

## **Annual Certification Statement:**

As documented in quarterly reports submitted in Reporting Year 2020 (RY2020), the Site was inspected during sampling events; all ICs remain in place and effective at the Site; no inconsistent uses have occurred; no land use proposals have been made and no drilling or excavation has occurred that are not in conformance with the Consent Decree; and no contingency actions were necessary.

As outlined in the Plan, the Himco Trust has documented compliance with:

- the Elkhart's Public Works and Utilities Department that no groundwater drinking wells have been installed in the affected locations; and
- the Elkhart County Recorder's Office that property ownership and zoning are unchanged.

The Himco Trust continues to maintain compliance with the Plan.

Himco Representative: Randall Cooper. P.E.

**Certification Signature** 

Date: 12/22/20

Should you have any questions on the above, please do not hesitate to contact us.

Sincerely,

GROUNDWATER & ENVIRONMENTAL SERVICES, IINC.

- Notes:

  1 Engineering Controls for the landfill have been met by providing appropriate soil cover, vegetation, drainage control, and soil gas venting.

  2 Engineering Controls for all affected private property owners have been implemented via connection to municipal water supply and abandoning private wells.

  3 Cleanup objectives include meeting MCLs for groundwater containmants including: arsenic, benzene, chloroform, 1,2-DCA(EDC), 1,2-DCP, vinyl chloride, calcium, iron, manganese, sodium, sulfate, 1,1-DCA, and ds:1,2-DCE

  4 Properties without Environmental Restricted Covenants (ERC) were subject to Deed Restrictions (DR) implemented on April 25, 2018.

  5 ERCs & DRs memorialize the Institutional Controls (IC), which are sumarized below:

Institutional Controls	Landfill Parcels	Residential Parcels
Prohibit activity that interferes with the	X	X
Prohibit groundwater use and installation of private wells.	×	×
Abandon private wells.		X
Prohibit digging/drilling into landfill cover.	×	
Limit reuse to industrial, recreational, or commercial.	×
